

# CARD PAYMENTS INTEGRATION

Allow members to fund accounts, make payments and transfer money with their debit or credit cards from other financial institutions

## INCREASE YOUR PAYMENTS OPTIONS

Our aim is to help make the member payment experience as seamless as possible. Integration with Beyond meets this objective and creates new efficiencies for our credit unions. Every step of the payment process can be performed within the FLEX core system.

### Core Based Payments

Collectors can take debit or credit cards through the core system to make delinquent loan payments, without the need for a point-of-sale device.

### New Account Funding

New members can fund their accounts with a debit or credit card from another financial institution, simplifying the account opening process.

### Payment Transfers

Add the ability for members to transfer from a debit or credit card from another financial institution within your Internet banking or mobile app to simplify the funds transfer process.

## About us

FLEX has disrupted the credit union core system marketplace by enabling efficient solutions for digital transformation and sustainable growth. FLEX will allow credit unions to launch a full-service digital banking suite with innovative member-facing technologies and automated services. Credit unions will buy back lost time by remapping the digital journey and increasing member loyalty.

## Grow with FLEX

- ✓ FLEX customers have experienced 10x growth or more following conversion.
- ✓ FLEX is scalable and will grow at your credit union's pace.
- ✓ FLEX credit unions are among the industry leaders in efficiency ratio.

GROW WITH FLEX

# Payments Integration Highlights

FLEX partners with Beyond for payments integration. Beyond is an omni-channel payments provider that can be incorporated into the FLEX core platform.

Integration with Beyond Payments provides credit unions with the ability to process card payments in-branch and over the phone.

Payment options include loan payments, account funding, collection scenarios, and more all within the FLEX core system. No point-of-sale device required.

Make the member payment experience as seamless as possible. Integration with Beyond meets this objective and creates new efficiencies for our credit unions.

Card information can be entered by the user/member while member information is automatically populated within FLEX, Internet banking and the mobile app.

FLEX auto-generates fees based on minimum amounts or a percentage of the transaction amount. General Ledger offsets are built-in for both payments and fees, removing manual entry and creating payment efficiencies.
